Key Features and Benefits

OneDrive and SharePoint

Keep business digital assets safe from harm with OneDrive and Sharepoint backup. Military grade encryption ensures your business critical data is protected against hackers, encryption malware and accidental deletion.

Calendars, Contacts and Tasks

As these data sets can often be neglected there can be significant data protection gaps. Assured DP's 365 backup includes Microsoft calendars, contacts and tasks to ensure privacy and security regulations are met.

Groups and Teams Backup and Restore

As groups and teams increase so does shared data. Make sure your important shared group and team files are protected and ready to restore in the event of a disaster.

Military Grade Encryption

TLS or SSL connections coupled with military-grade encryption with 256-bit Advanced Encryption Standard (AES) ensures your data is safe in flight and at rest.

Insights BI Adds Email Data Analytics

Utilise your archived email data for business intelligence. Turn your email data sets into graphs, charts and reports to help you discover issues and make improvements.

Simple and Flexible Pricing

Choose a payment plan to suit your business with monthly and annual options. Our pay per user model makes it easy to add new team members when you need to.

Exchange Online Backup

Automate backups for Exchange to maximise speed and manageability whilst taking the hassle out of keeping your online files secure and protected. Our unlimited storage offering also means that you never need to worry about running out of space safe in the knowledge that your data will always be recoverable.

Advanced Email Archiving

Advanced email archiving is included in our top level subscription plan. Features include advanced search, audit trail, tailored retention periods, eDiscovery, envelope journaling, legal hold, review process, unlimited storage and retention plus malware protection.
